Missouri Department
of Conservation

Season Overview:

Wild turkeys may be pursued, taken, killed, possessed or transported only as outlined in this booklet. For complete hunting regulations, refer to the *Wildlife Code of Missouri*, available at permit vendors and on the Department's website.

Youth Season: April 9–10, 2005

Regular Season: April 18–May 8, 2005

Season Limit: Varies by season; see pages 2 and 4.

Methods: Shotgun or longbow/compound bow

Valid Permits:

Resident Spring Turkey Hunting Permit	\$17
Resident Landowner Spring Turkey Hunting Permitno cost
Nonresident Spring Turkey Hunting Permit\$145
Nonresident Landowner Spring Turkey Hunting Permit\$75
Youth Deer & Turkey Hunting Permit\$17

Shooting Hours: 1/2 hour before sunrise to 1 p.m. Central Daylight-Saving Time

Youth Spring Turkey Hunting Season

Who May Participate:

The youth hunter must be:

- a Missouri resident
- age 15 or younger on season opening day

Season Dates: April 9–10, 2005

Shooting Hours: 1/2 hour before sunrise to 1 p.m. Central Daylight-Saving Time

Valid Permits:

Youth hunters must possess one of the three following permits:

- a **Youth Deer & Turkey Hunting Permit**, if ages 6–15. While hunting, the youth must be in the immediate presence of a properly licensed adult who has a valid hunter education certificate card; see page 3 for more details.
- a **Resident Spring Turkey Hunting Permit**, if age 11–15 and hunter education certified.
- a **Resident Landowner Spring Turkey Hunting Permit**, if age 15 or younger and an immediate household member of a resident landowner or qualifying lessee (see “Definitions,” page 3). See page 5 for information on how to obtain no-cost landowner spring turkey hunting permits.

Note: Landowner permits are valid only on the land for which they are issued.

Season Limit: One male turkey or turkey with visible beard. **See restrictions below:**

- Youths who take a turkey on a **Youth Deer & Turkey Hunting Permit** may *not* also harvest another bird during the regular spring turkey season.
- Youths who take a turkey on a **Resident Spring Turkey Hunting Permit** may harvest a second bird, but not until the beginning of the second week of the regular season. This is because *the bird taken during the youth season counts as the first bird for the first week of the regular season.*

Methods: Same methods and restrictions as during the regular spring turkey season. See “Methods” on page 4.

Safety Sticker Requirement: Same as during the regular spring turkey season. See “Safety Sticker Requirement” on page 4.

Tagging & Checking: Same as during the regular spring turkey season (see “Tagging & Checking” on page 4), except **not all check stations will be open during the youth spring turkey hunting season.** Carefully review the list of check stations on pages 8–14.

Definitions:

Resident landowner: Any Missouri resident who owns at least 5 continuous acres, or members of his or her immediate household. In the case of corporate ownership, only registered officers of the corporation can qualify.

Lessee: Any Missouri resident who resides on at least 5 continuous acres owned by others, or members of his or her immediate household.

Nonresident landowner: Any resident of another state who owns at least 75 continuous acres in Missouri, or any member of his or her immediate household. In the case of corporate ownership, only registered officers of the corporation can qualify.

Immediate household member: Someone, related or unrelated, who has lived in the home with a qualifying landowner or lessee for at least the last 30 days. Family members who live elsewhere do not qualify.

Hunter Education Requirement

All hunters born on or after Jan. 1, 1967, and hunting with a Resident or Nonresident Spring Turkey Hunting Permit must complete an approved hunter education program and display their card before they can purchase a firearms turkey hunting permit. They do not have to show their card if certification can be verified through the permit vendor's computer terminal. A Missouri Conservation Heritage Card with a hunter education number is an acceptable hunter education certificate card. A person must be at least 11 years old to receive hunter education certification. Those under age 11 may not purchase regular firearms deer or turkey hunting permits. Persons hunting with either a Youth Deer & Turkey Hunting Permit or a Resident Landowner Spring Turkey Hunting Permit are exempt from the hunter education requirement.

Youth Deer & Turkey Hunting Permit

The Youth Deer & Turkey Hunting Permit, \$17, is available to all youths age 6 through 15. During the permit year, it allows **resident youths** to take one male turkey or turkey with visible beard during *either* the youth spring turkey season or the regular spring turkey season, *and also* one turkey of either sex during the fall firearms turkey season. **Nonresident youths** may participate in the regular spring and fall turkey seasons, but *not* the youth spring season. The permit also is valid for one deer during the fall firearms deer season.

Note: Youths hunting with this permit are not required to be hunter education certified; however, they must be *in the immediate presence of a properly licensed adult who has a valid hunter education certificate card.*

- ▶ “Immediate presence” means close enough for normal conversation, without shouting.
- ▶ “Properly licensed” means a valid filled or unfilled spring turkey hunting permit.
- ▶ “Adult” means someone age 17 or older.
- ▶ “Valid hunter education certificate card” means the adult must be hunter education certified, regardless of the adult's age. **Note:** Resident landowners born before Jan. 1, 1967, accompanying youths on the landowner's property are exempt from the hunter education requirement.

Youths who purchase a Youth Deer & Turkey Hunting Permit, but who turn age 11 later in the permit year and obtain hunter education certification, may surrender unused portions of their youth permit and purchase regular firearms deer and/or turkey permits for the fall seasons. However, there are no refunds for surrendered portions. Youths must abide by the appropriate season dates, methods and tagging/checking requirements.

Equal opportunity to participate in and benefit from programs of the Missouri Department of Conservation is available to all individuals without regard to their race, color, national origin, sex, age or disability. Complaints of discrimination should be sent to the Department of Conservation, P.O. Box 180, Jefferson City, MO 65102, or U.S. Fish & Wildlife Service, 18th and C Streets NW, Washington, D.C. 20240, Missouri Relay Center —1-800-735-2966 (TDD).

2005 Spring Turkey Hunting Season

Season Dates: April 18–May 8, 2005

Shooting Hours: 1/2 hour before sunrise to 1 p.m. Central Daylight-Saving Time

Valid Permits: Resident or Nonresident Spring Turkey Hunting Permit, Resident or Nonresident Landowner Spring Turkey Hunting Permit, Youth Deer & Turkey Hunting Permit

Permit Restrictions: Hunters born on or after Jan. 1, 1967, and hunting with a Resident or Nonresident Spring Turkey Hunting Permit must be hunter education certified. See box on page 3.

Season Limit: Two male turkeys or turkeys with visible beard may be taken during the season, with the following restrictions:

- ▶ *You may only take one turkey during the first week from April 18–24.*
- ▶ *If you do not take one during the first week, then you may take two during the second or third week from April 25–May 8, but you may not take them both on the same day.*

Any hunter who kills or injures a turkey must make a reasonable effort to retrieve and include it in their season limit, but this does not authorize trespass. It is a violation to wantonly leave, abandon or waste commonly edible portions of game.

Methods: The following are allowed during the spring firearms turkey hunting season:

- ▶ a shotgun with shot not larger than No. 4
- ▶ a longbow or compound bow. Hand-held string releasing devices, illuminated sights, scopes and quickpoint sights are allowed.

The following are prohibited:

- ▶ shotguns holding more than 3 shells in magazine and chamber combined
- ▶ shot larger than No. 4 (in use or in possession)
- ▶ a bow fastened to a stock or other device that maintains the bow in a drawn position
- ▶ any sighting device that casts a beam of light on the game
- ▶ use of dogs, recorded calls or live decoys
- ▶ use of bait, which includes grain or other feed placed or scattered so as to attract turkeys. An area is considered baited for 10 days even after complete removal of the bait. A hunter can be in violation even if they did not know an area was or is baited. It is illegal to place

bait in a way that causes others to be in violation of the baiting rule.

Safety Sticker Requirement: All hunters using a shotgun must affix the “Be Safe” sticker to the receiver of their gun so it will be in their line of sight when shooting. The sticker must be maintained on the gun while hunting. Stickers are available wherever permits are sold.

Tagging & Checking: Anyone who kills a turkey must immediately separate the transportation tag from their permit and attach it to the turkey. See illustration on page 16.

The transportation tag must remain on the turkey until it has been officially checked. After checking, turkeys may be possessed and transported by anyone, but must be labeled with the taker’s full name, address and permit number.

Turkeys must be checked within 24 hours:

Either:

- ▶ in person by the taker at an official checking station (see list beginning on page 8)

Or:

- ▶ by TeleCheck

Using TeleCheck: All hunters can use TeleCheck to check their turkey by phone or online. *Either* use a touch-tone phone to call **1-800-314-6828** between 6 a.m. and midnight, *or* go online at www.missouriconservation.org. You will be asked to provide the following information:

- ▶ the TeleCheck number on your permit
- ▶ turkey type (adult gobbler, juvenile gobbler, or bearded hen)
- ▶ beard length (*either* less than 6 inches *or* 6 inches or more)
- ▶ spur length (for adult gobblers only: (*either* less than 1 inch *or* 1 inch or more)
- ▶ county of harvest

Use your permit to measure length of beard and spur; see back cover.

After providing the required information, you will be given an eight-digit confirmation number that verifies you have legally checked your game. Write this number in the space provided on the transportation tag already attached to your turkey. The checking process is now complete, and you can handle and process your game as if you had checked it at a check station.

If you use TeleCheck, do not recheck your bird at a check station

No-cost Landowner Permits Available at Vendors

All turkey hunters, including landowners, must have a permit issued from a permit vendor. **Farm tags are no longer valid.** You qualify for no-cost spring turkey hunting permits if you:

- ▶ are a Missouri resident
- ▶ own at least 5 acres
- ▶ lease at least 5 acres and reside on the leased land
- ▶ live in the home with a landowner or residing lessee

Obtaining Your Permits Is Easy

To obtain your no-cost spring turkey hunting permits, go to any permit vendor and tell them:

- ▶ your name
- ▶ your Conservation I.D. number, Heritage Card number, Social Security Number or drivers license number
- ▶ the number of acres you own or lease and reside on

- ▶ the county where your land is located

Multiple County Landowners

If you own land in more than one county, you can get permits valid for *all* your property. Go to any permit vendor between 7 a.m. and 5 p.m. Monday through Friday and tell the vendor you own land in more than one county and want to hunt on all your land. The vendor will contact the Conservation Department by phone for approval, and your permits will be issued on the spot. Or, pick up an application from any vendor at any time and request your permits by mail from the Jefferson City Conservation Department office.

Note: All landowner hunting permits are valid *only* on the land for which they are issued. You must purchase permits to hunt on land you do not own or lease and reside on.

Anyone using a turkey call to assist another hunter must be properly licensed with either a filled or unfilled spring turkey hunting permit.

Nonresident Landowner Permits and Privileges

Nonresidents who own land in Missouri may apply to purchase a Nonresident Landowner Firearms Turkey Hunting Permit valid for the spring season for \$75. The nonresident landowner's immediate household members (see "Definitions" above) also may be eligible. To qualify, land must be:

- ▶ at least 75 acres
- ▶ in one continuous piece

How To Apply: Complete and submit a *Nonresident Landowner Deer & Turkey Permit Application* form, available at Conservation Department regional offices or by calling (573) 522-4115, ext. 3880 during normal business hours. Landowners must provide proof of land ownership and number of acres owned.

Application Deadline: March 4, 2005. Applications received after that date may not allow enough time for processing of application and purchase of permit. We will accept applications after March 5 but cannot guarantee delivery of permits in time for opening day.

Note:

- ▶ Nonresident Landowner Firearms Turkey Hunting Permits are valid *only* on the land for which they are issued
- ▶ All nonresidents must abide by spring turkey hunting season dates, methods and limits.
- ▶ Nonresident landowners must use the transportation tag portion of their permit to tag their bird and check it as outlined in "Tagging & Checking" on page 3.

Hunting Safety is No Accident

According to the National Safety Council, hunting is a very safe activity. In fact, hunting results in fewer injuries per 100,000 participants than do many other sports, including cycling, bowling, golf and tennis. However, you must always use good judgment and take responsibility for your actions.

If you are involved in a firearms-related hunting accident, the law requires that you identify yourself and render assistance. Failure to do so is a Class A misdemeanor.

There were 10 firearms-related accidents during the 2004 spring turkey hunting season; one was fatal. As you will see, simple carelessness can result in serious injury and even death. Don't make the same mistakes these hunters made.

April 19, 7:00 a.m.—A hunter, his uncle, and a friend, hunting on private land, entered the woods before daylight and separated to set up. After it became light, the uncle began walking through the woods towards an open field. The nephew also had begun walking. The nephew saw movement and shot twice, striking his uncle in the head, trunk and both arms. An investigation revealed that both hunters were using shells with larger-than-allowed shot. In addition, the uncle was hunting with an unplugged shotgun, and the nephew did not possess a valid hunting permit. Both hunters were issued citations, and it is recommended that the nephew lose all hunting privileges for a number of years.

April 19, 7:30 a.m.—Two buddies hunting together on public land were seated back-to-back at the base of a large tree. They saw another hunter enter the area and place a decoy close to their position. One of the pair waved to advise the new arrival of their presence. About 45 minutes later, the new arrival fired, striking one hunter in the face and hand and the other in the hand and shoulder. When they yelled, the shooter came to offer assistance. It is recommended that the shooter lose all hunting privileges for a number of years.

April 19, 7:45 a.m.—When a hunter on private land saw turkeys cross a creek in front of him, he fired, striking an unseen landowner on

adjacent property. The first hunter immediately offered assistance to the landowner who was struck in the head and left arm.

April 21, 6:30 a.m.—Two friends hunting on private land split up to hunt in different locations. One hunter saw a jake and fired, knocking it down. When the jake got up and ran, the hunter fired again, killing the jake; but the shot also struck the nose of his companion, who was 112 yards away.

April 22, 7:00 a.m.—Unbeknownst to each other, two brothers and a solitary hunter were hunting on the same farm. The lone hunter was walking down a logging road when he saw one of the pair walking up a hill. When he raised his hand and waved, the hunter shouldered his shotgun and fired, striking the solitary hunter on the left side. It is recommended that the shooter, who was not properly licensed, lose all hunting privileges for a number of years.

April 22, 9:50 a.m.—Two solitary hunters had permission to hunt on the same farm, but neither knew that the other was hunting that day. After hearing a turkey gobble, one hunter set up at the base of a large tree. The other hunter, who apparently was stalking the same gobbler, approached from the right. The first hunter saw movement and fired, striking the other hunter in the head and chest, killing him. It is recommended that the shooter lose all hunting privileges for a number of years.

April 27, 6:35 a.m.—After changing position, a hunter on private land asked his accompanying friend to retrieve two decoys he had earlier left in a field. While alone, he saw a bearded turkey go under a fence. When it was 20 yards away, he fired, striking his friend in the head, chest and right arm. Apparently, he mistook the decoy under his friend's arm for a live bird. It is recommended that the shooter lose all hunting privileges for a number of years.

April 29, 6:45 a.m.—A hunter was sitting at the base of a large oak tree just on the edge of a logging road on private land. When he saw a second hunter walking along the road, he

BE
SAFE

waved with his ungloved right hand. The second hunter saw the movement and fired, striking the first hunter in the head, neck, arms and buttocks. It is recommended that the shooter lose all hunting privileges for a number of years.

April 30, 1:45 p.m.—A solitary hunter returned to his vehicle after hunting on a friend's farm. Realizing that he had lost his decoy, he decided to return to look for it. After going a short way he heard a shot and felt pain in his upper right arm. The shooter has not yet been identified.

May 1, 9:30 a.m.—A father and son were hunting on private land, accompanied by a second son. While the two sons walked west along a fence row, the father went north and set up a blind. The two boys walked around the farm, using a gobble call as they went. The father heard gobbling and saw what he believed to be two turkeys walking down a field road. He fired, striking both sons. One was uninjured, but the other was struck in the head, face and neck. One pellet entered his left eye, damaging the retina and optic nerve. It is recommended that the father lose all hunting privileges for a number of years.

Help Stop Feral Hogs

Feral hogs destroy natural communities, compete with native wildlife for food, and spread diseases to people, pets and livestock. They are a menace that must be eradicated.

A feral hog is defined as any hog, including Russian and European wild boar, that is not conspicuously identified by ear tags or other identification and is roaming freely on public or private land without the landowner's permission. If you kill a feral hog on public land or on private land where you have permission to hunt, you are not liable if someone later claims to own the animal. It is illegal to release feral hogs on public land or on private land that is not fenced to contain them.

Feral hogs may be killed in any number at any time. During most of the year, no permit is required and any method, including baiting and the use of dogs, is allowed. However, during the youth and regular spring turkey hunting seasons, special restrictions apply.

During the youth and spring turkey hunting seasons, to kill feral hogs you must:

- ▶ possess a valid, unfilled turkey hunting permit
- ▶ only use methods allowed for taking turkeys.

Note: Resident landowners on land they own and lessees on land they reside on may use any method to take feral hogs at any time without any permit.

Report sightings of feral hogs to the Conservation Department at (573) 522-4115, ext. 3147. For more information about feral hogs, the problems they cause and the diseases they spread, visit our web site at www.missouriconservation.org.

If you encounter a feral hog while hunting turkeys, shoot it on sight.

Coyotes may not be chased, pursued or taken from April 1 through May 8.

The National Wild Turkey Federation collects and maintains information on record turkeys. For Missouri records, contact:

The National Wild Turkey Federation

**SUNRISE AT JEFFERSON CITY, MO.
Central Daylight-Saving Time**

This table is for Jefferson City and points on the same longitude north or south. For locations east, subtract one minute from the table for each 13 1/2 miles (airline) of distance. For locations west, add one minute for each 13 1/2 miles. For example, St. Louis is 106 miles east: subtract 8 minutes; Kansas City is 133 miles west: add 10 minutes. Or for the sunrise and sunset times anywhere in the United States, see the U.S. Naval Observa- tory web site: http://aa.usno.navy.mil/	DAY	SUN- RISE

TAGGING AND PERMIT PROCEDURES

DO NOT attach your permit to the game.
Separate the transportation tag from your permit and attach it to the leg.

Detaching the transportation tag invalidates the permit, so do not detach until immediately after harvest.

Permit below is shown less than full size.

LISA HUNTER 3006 WINCHESTER LN TURKEYTOWN, MO 65432	05	Transportation Tag for Deer/Turkey Attach to Deer or Turkey IMMEDIATELY Permit # 123456789	Write confirmation # here
MISSOURI CONSERVATION DEPARTMENT 2005 PERMIT		05	1123456789065000
CONSV #: 123456789	TeleCheck # A12 345 6790		PERMIT # 123456789 VENDOR ID: 030-114
LISA HUNTER 3006 WINCHESTER LN TURKEYTOWN, MO 65432	TERMINAL ID: 1234567 04/10/2005 11:32		
DOB: 04-02-1966	HUNTER ED#:123456	055-Resident Spring Turkey	\$17.00
HT: 5'8"	WT: 150		
HAIR: BROWN	EYES: BLUE	GENDER: F	
I agree to comply with the Wildlife Code, to present this permit upon request to any officer authorized to enforce wildlife rules, and to allow such officer to inspect wildlife in possession to determine compliance with rules.		SIGNATURE: <i>Lisa Hunter</i>	

Use your permit to measure length of beard and spur:

- Your permit is 6 inches long.
- The signature line on your permit is 2 inches long (1 inch mark in the middle).

How to tell a Gobbler from a Hen

Large size, black body and long beard are marks of the gobbler. Hens sometimes have beards, but color, size and behavior distinguish them from gobblers. Hens are smaller, brown birds with blue heads. Bearded hens produce young and help increase the turkey population. They should not be killed, but any turkey with a clearly visible beard is legal in Missouri. Hens without beards are illegal and must not be killed. The future of our wild turkey hunting depends on you.

HEN

Breast
feathers
buff-tipped

Female

mainly blue
usually no beard
appears rusty
no spurs

Male

mainly red
long tassel-like
appears black
usually 1/2 inch or more

Breast
feathers
black-tipped

GOBBLER
